

10A NCAC 41B .0206 DETERMINATION OF RENEWAL OF PERMIT

(a) In determining whether to renew the permit of a blood analyst, the Director shall consider whether the method and procedure continues to meet the generally accepted forensic standards for chemical analyses of blood; he shall also take into account evidence available concerning the character and continuing ability of the blood analyst.

(b) If in acting upon an application for renewal of permit the Director returns the application for additional information, or requests a modification of method, so as to cause a delay in granting the renewal or modified permit, the Director at his discretion may grant the blood analyst a provisional permit under the conditions applicable to the expiring permit. A provisional permit shall be valid for the period stated in the permit, but shall not be issued for a period longer than three months. A provisional permit may be renewed once.

*History Note: Authority G.S. 20-139.1(b);
