

10A NCAC 46 .0209 ADULT HEALTH

(a) A local health department shall provide, contract for the provision of, or certify the availability of adult health services for all individuals within the jurisdiction of the local health department. A local health department shall establish, implement, and maintain written policies which shall include:

- (1) A description of the procedures for adult health services provided by the local health department, a copy of the contract for the provision of adult health services, or a certification of availability of adult health services. These shall include the following prevention and detection services for cancer, diabetes, and hypertension.
 - (A) Identification, recruitment, screening, including laboratory services, referral, and follow-up;
 - (B) Nutrition services to patients and persons at risk.
- (2) A description of the target population for adult health services provided by the local health department, including eligibility criteria.
- (3) A description of fees, if any, for adult health services provided by the local health department.

(b) A local health department shall establish, implement, and maintain written policies for the provision of cancer, diabetes, and hypertension health education services to the community, persons at risk, and patients.
