

11 NCAC 08 .1313 NATURE AND SCOPE OF APPROVAL OF UPDATE COURSE INSTRUCTORS

Approval of update course instructors shall be accomplished on a calendar year basis separate from the approval of update course sponsors. Approval of an update course instructor authorizes the instructor to teach the update course for any approved update course sponsor; however, an approved update course instructor may not independently conduct an update course unless the instructor has also obtained approval as an update course sponsor. An instructor shall obtain written approval from the Board before teaching an update course and before representing to any sponsor or other party that he or she is approved or may be approved as an update course instructor.
