

18 NCAC 07J .0615 MAINTENANCE OF SOFTWARE AND HARDWARE

A technology provider's hardware, software, and firmware for systems supporting the electronic notary solution shall:

- (1) not be classified as end-of-life by their manufacturers;
- (2) still be eligible for vendor security patches; and
- (3) comply with the "N-1" principle that states that all systems should be running either the newest stable release or one version prior to that release.

*History Note: Authority G.S. 10B-4; 10B-106; 10B-125(b); 10B-126; 10B-134.15; 10B-134.17; 10B-134.19; 10B-134.21; 10B-134.23;
Eff. July 1, 2025.*
