

21 NCAC 18B .0305 LICENSE REQUIREMENTS AND EXEMPTIONS

(a) Pursuant to G.S. 87-43.1(7), an electrical contractor's license is not required for:

- (1) the installation and servicing of electrical appliances or equipment which is being supplied through a cord connected by means of an attachment plug-in device to a suitable permanently installed receptacle; and
- (2) the servicing of electrical appliances or equipment being supplied through wiring connected to a permanently installed junction box.

(b) Unless exempted by a statute other than G.S. 87-43.1(7), an electrical contractor's license is required for:

- (1) the installation of the permanently installed receptacles to which cord-supplied electrical appliances or equipment are connected;
- (2) the installation of the permanently installed junction boxes to which electrical appliances or equipment are connected; and
- (3) any wiring connected to and supplied from the out-put side of any electrical appliances or equipment regardless of whether such appliances or equipment are supplied through a cord connected by means of an attachment plug-in device to a suitable permanently installed receptacle or are supplied through wiring connected to a permanently installed junction box.

*History Note: Authority G.S. 87-42; 87-43.1;
Eff. October 1, 1988;
