

**02 NCAC 52J .0204      PRIMARY ENCLOSURES**

- (a) Primary enclosures shall be constructed so as to prevent contamination from waste and wastewater from animals in other enclosures. All surfaces with which an animal comes in contact shall be impervious to moisture. For primary enclosures placed into service on or after January 1, 2005, no wood shall be within the animal's reach. For primary enclosures in use in a licensed or registered facility prior to January 1, 2005, any damaged wood must be replaced in a manner that does not permit contact with wood by the animal.
- (b) Primary enclosures for dogs and cats shall be structurally sound and maintained in good repair and in a manner to prevent injury to animals and keep other animals out. Primary enclosures shall be constructed so as to provide space to allow each dog or cat to walk, urn about freely, and to easily stand, sit, or lie in a natural position. The height of a primary enclosure other than a cage shall be no less than five feet. All enclosures shall be constructed to prevent the escape of animals.
- (c) Each primary enclosure shall be provided with a solid resting surface or surfaces adequate to comfortably hold all occupants of the primary enclosure at the same time. All resting surfaces must be of a non-porous or easily sanitized material, such as a towel, or a disposable material such as newspaper. The resting surface or surfaces shall be elevated in primary enclosures housing two or more cats.
- (d) In addition to Paragraph (b) of this Rule, each dog shall be provided a minimum square footage of floor space equal to the mathematical square of the sum of the length of the dog in inches, as measured from the tip of its nose to the base of its tail, plus six inches, then divide the product by 144. The calculation is: (length of dog in inches + 6) x (length of dog in inches + 6) = required floor space in square inches. Required floor space in square inches ÷ 144 = required floor space in square feet. The calculation shall be expressed in square feet. Not more than four adult dogs shall be housed in the same primary enclosure without supervision.
- (e) If more than four dogs are housed in a common area or enclosure, then there must be at least one person supervising each 10 dogs housed within each enclosure or common area.
- (f) In addition to Paragraph (b) of this Rule, each feline older than six months housed in any primary enclosure shall be provided a minimum of four square feet of floor space which may include elevated resting surfaces. Each feline younger than six months shall be provided 1.5 square feet. Not more than 12 cats shall be housed in the same primary enclosure.
- (g) In all cat enclosures, a receptacle containing clean litter shall be provided for waste. A minimum of one receptacle per three cats is required.
