(a) A written program of veterinary care to include disease control and prevention, vaccination, euthanasia, and adequate veterinary care shall be established with the assistance of a licensed veterinarian by any person who is required to be licensed or registered under the Animal Welfare Act, Article 3 of Chapter 19A of the General Statutes.

(b) If there is a disease problem that persists for more than 30 days at the facility, the facility operator shall obtain and follow a veterinarian's written recommendations for correcting the problem.

(c) Each dog and cat shall be observed daily by the animal caretaker in charge, or by someone under his direct supervision. Sick or diseased, injured, lame, or blind dogs or cats shall be provided with veterinary care or be euthanized, provided that this shall not affect compliance with any state or local law requiring the holding, for a specified period, of animals suspected of being diseased. If euthanasia is performed at a certified facility, a list of personnel approved to perform euthanasia shall be maintained in a Policy and Procedure Manual as described in 02 NCAC 52J.0800. Diseased or deformed animals shall be sold or adopted only under the policy set forth in the "Program of Veterinary Care." Full written disclosure of the medical condition of the animal shall be provided to the new owner.

(d) All animals in a licensed or registered facility shall be in compliance with the North Carolina rabies law, G.S. 130A, Article 6, Part 6. However, no shelter shall be disapproved following inspection or otherwise cited for failure to inoculate any dog or cat known to be less than 12 weeks old or until such animals have been in the shelter at least 15 days.
