

10A NCAC 13D .2208 SAFETY

- (a) The facility shall have detailed written plans and procedures to meet potential emergencies and disasters, including but not limited to fire, severe weather and missing patients or residents.
- (b) The plans and procedures shall be made available upon request to local or regional emergency management offices.
- (c) The facility shall provide training for all employees in emergency procedures upon employment and annually.
- (d) The facility shall conduct unannounced drills using the emergency procedures.
- (e) The facility shall ensure that:
 - (1) the patients' environment remains as free of accident hazards as possible; and
 - (2) each patient receives adequate supervision and assistance to prevent accidents.
