

**10A NCAC 15 .1506      CONTENT OF APPLICATION FOR WASTE COLLECTORS**

If the applicant for a site access license is a waste collector, the application required in Rule .1504 of this Section shall include the following additional information:

- (1) radioactive material license numbers under which waste collection activities are conducted;
- (2) complete description of the applicant's current waste collection and handling program, to include:
  - (a) a list of the states in which waste collection services will be provided;
  - (b) a list of the waste processors and waste disposal facilities to which collected waste may be shipped;
  - (c) procedures for:
    - (i) waste collection at customer facilities;
    - (ii) handling, identifying, accounting for, and segregating the waste shipped to waste processors and waste disposal facilities;
    - (iii) ensuring that waste shipped to a waste disposal facility located in North Carolina is collected only from persons who hold a currently valid site access license issued pursuant to the rules in this Section;
    - (iv) ensuring that packages, labels, vehicles, placards, and radiation and contamination levels comply with applicable state and federal regulations;
    - (v) quality assurance and quality control;
    - (vi) notifications and emergency response in the event of accidents during transportation, including the qualifications and responsibilities of the driver;
- (3) a list of the waste processing and disposal facilities to which collected waste was shipped during the past five years; and
- (4) any regulatory notices of violation and corrective actions related to on-site and off-site management described in Items (2) and (3) of this Rule during the past five years.
