

10A NCAC 15 .1510 RADIOACTIVE SHIPMENT MANIFEST

(a) A manifest completed by the shipper, on forms supplied by the disposal facility operator, shall accompany each shipment of waste to a disposal facility located in North Carolina and shall include all information and certifications required by the rules in this Chapter and the disposal facility operator's license conditions.

(b) If the shipper is a waste processor, the manifest required in Paragraph (a) of this Rule shall reflect any consolidation of the original waste generator manifests and any residual waste generated by the processor.
