

### **13 NCAC 07F .0706 UNDERGROUND TRANSPORTATION OF EXPLOSIVES**

Additions and amendments to 29 CFR 1926.903 Underground Transportation of Explosives apply throughout the Rules in this Section as follows:

- (a) In order to prevent explosives hazards, all explosives or blasting agents in transit underground shall be taken to the place of use or storage without delay.
- (b) The quantity of explosives or blasting agents taken to an underground loading area shall not exceed the amount estimated by the Blaster-in-Charge to be necessary for the blast.
- (h) Vehicles containing explosive material shall be occupied only by persons necessary for handling the explosive material while in transit.
- (m) Any powder car or conveyance used for transporting explosives or blasting agents shall bear a reflecting sign on each side with the word "Explosives". The sign's letters shall be a minimum of 4 inches in height and shall be on a background of sharply contrasting color.
- (n) Compartments for transporting detonators and explosives in the same car or conveyance shall meet IME-22 container specifications or shall be physically separated by a distance of 24 inches or by a solid partition at least 6 inches thick.
- (q) Explosives or blasting agents, not in original containers, shall be placed in a nonconductive, closed container when transported manually.
