

### **15A NCAC 02H .1043 FAST TRACK PERMITTING PROCESS: AUTHORIZATION TO CONSTRUCT**

The purpose of this Rule is to set forth the first of two phases of the Fast-Track Stormwater Permit application process: applying for and receiving an authorization to construct permit. There will be a completeness review during the first phase of this process; however, at project completion, the Division shall review the as-built submittal package to determine compliance with the Minimum Design Criteria (MDC).

- (1) **APPLICABILITY.** The fast-track permitting process shall be an option for new projects and major modifications of existing projects provided that all of the MDC shall be met upon project completion. Projects that do not qualify for the fast-track permitting process include:
  - (a) projects claiming an exemption from the MDC based on vested rights, a waiver, or Director's certification pursuant to Rule .1040(7) of this Section;
  - (b) modifications to existing projects where the proposed changes to the SCMs will not result in compliance with MDC; and
  - (c) projects that are not in compliance with a current stormwater permit.
- (2) **ELIGIBILITY FOR FAST-TRACK SUBMITTAL.** Persons seeking authorization to construct under the fast-track permitting process shall submit an application bearing the signature and seal of a person licensed pursuant to either Chapter 89A or Chapter 89C of the NC General Statutes. The signature and seal of such persons on the fast-track application shall signify that they have the expertise, education, and experience required to design the SCMs proposed in the application in accordance with the MDC and that they are in compliance with the applicable standards of professional conduct.
